POWERFUL 250 LUMEN FLASHLIGHT

OPERATION

Button uses standard operation and Soft Touch Technology.

Standard Operation: Simply click through the functions (light will turn off in between settings)

Soft Touch: Press button halfway with no click. This allows the user to cycle through the settings quickly without the light turning off between settings.

- **FLASHLIGHT**
1. To activate flashlight, click button 1x
- **WORK LIGHT**
2. From the previous mode, click button 2x or Soft Touch 1x
- **OFF**
3. From the previous mode, click button 1x

FEATURING
SLYDE
PATENT PENDING TECHNOLOGY

A new innovation in LED technology, C-O-B features smaller, more compactly clustered LED chips that are mounted directly to the circuit board. These LED chips work together as one lighting module. Because of the compact design, C-O-B outperforms traditional lighting by up to 50 times the light output per centimeter of light source.

WARNING

AVOID EYE INJURY-Do not stare directly into beam or shine it directly into anyone's face. Doing so for more than a few seconds could cause retinal damage. Do not allow children to use LED lights unless under the supervision of an adult.

CAUTION

Do not mix old and new batteries. Do not mix alkaline, standard (carbon-zinc), or rechargeable (NiCad or NiMH) batteries. Do not use rechargeable or reusable alkaline batteries. Dispose of old batteries properly.

QUALITY GUARANTEE

This product is guaranteed against all defects in workmanship and materials for the original owner for one year from the date of purchase. Damage to or failure of the flashlight or any component thereof due to alteration, misuse, battery leakage or lack of maintenance will void any and all guarantees. Damage by leakage of batteries should be taken up with the manufacturer of the battery using their damage claim instructions. For any additional information call 1-800-255-6061.
